To: Whom it may concern

Greetings from Dr. Martha Mead Elementary School! We write this letter with much excitement about endeavors that have had great potential to influence and positively impact the lives of all of our students and our families.

Mead Elementary is a school within the Northside Independent School District that serves a wide range of soci-economic and diverse students. Our campus has a population of 800 students, of whom 85% come from an economically disadvantaged background or are considered English language learners. Even still, we believe that every one of our students has the innate ability to learn and holds a bright future ahead of them.

Mead is a unique campus among all Northside elementary schools. Specifically, Mead Elementary School is a Title I campus that serves a diverse community of students and parents that are economically disadvantaged and at-risk. Our students' experiences are limited because of socioeconomic status and other monetary restraints. Their resources can most often only afford the basic necessities, such as food and shelter.

Many of our parents work two jobs just to make ends meet and often times cannot afford the daily essentials such as clothes and shoes for their family. We have students who live at The Children Shelter, Haven for Hope and stay by the week apartments just to name a few.

We have partnered up with New Hope Connection to help provide shoes for the students living at the Wuzbach Manor Apartments.

Any help that you can provide is greatly appreciated.

Sincerely,

A handwritten signature in cursive script that reads "Annette Lopez".
